

EASY SUN

Product fact sheet

Brafab

EASY SUN

The easy sun is a massive free-hanging parasol with a diameter of 3.75 m. The stand is made of aluminum and the canopy is made of durable olefin with a wind flap. Parasols can also be rotated 360 degrees around their axis. The updated version for 2024 folds more easily up and down with the help of a crank.

The parasol base (optional) is filled with water, sand, or both. A simpler parasol cover is included with the parasol, but it can also be supplemented with a stronger version.

HIGHLIGHTS

- The East Sun parasol is 3,75 in diameter
- Free hanging.
- Can be rotated 360 deg.
- Parasol base sold separately.

FACTS

Introduction year: 2024
